SUMMARY

Computer Science & Engineering student with hands-on experience in C++, Python, web development, and AI/ML. Enjoys building practical AI-driven solutions and solving real-world problems through technology.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering — CGPA: 8.16

S G Balekundri Institute Of Technology, VTU University

Sep 2023 – Present · Belagavi, India

12th / PUC — Science — Percentage: 93.5%

Govt. PU College

Jul 2021 – Apr 2023 · Nargund, India

10th / Secondary School — Percentage: 87%

Lions English Medium School

Jun 2020 – Mar 2021 · Nargund, India

EXPERIENCE

Python Intern — Besant Technologies

Dec 2025 – Jan 2026

Completed a Python internship at Besant Technologies, gaining practical knowledge of Python programming and strengthening problem-solving skills through hands-on learning and real-world applications.

PROJECTS

AI-Based Offline Navigation & Obstacle Alert App

Apr 2026 – Aug 2026

AI-powered mobile application assisting visually impaired users with real-time obstacle detection using YOLO-based computer vision, voice alerts, and full offline functionality.

Technologies: Python, YOLO, Computer Vision, AI/ML

VISURA — Offline Clinical AI Assistant (CodeClipse 24-Hour Hackathon)

Apr 2026

Offline clinical AI system using VLM + RAG on Raspberry Pi for image-based condition identification and WHO-verified protocol retrieval, with voice interaction and a PWA interface.

Technologies: Raspberry Pi, VLM, RAG, FastAPI, React, FAISS, Whisper

Phishing Website Detection System

Aug 2025 – Sep 2025

Machine learning system that detects and classifies phishing websites in real time using URL and website feature analysis, served via a Flask web app.

Technologies: Python, Machine Learning, Scikit-learn, Flask

SKILLS

Programming: C++, Python, JavaScript, Kotlin

Web Development: HTML, CSS, React.js, Flask, PHP, REST APIs

AI / Machine Learning: Machine Learning, Scikit-learn, YOLO, Computer Vision, AI/ML

Database: MySQL, Firebase

Tools: Git, GitHub, VS Code
